

Congratulations to Ramsay Health Care on their consistently high NJR data quality audit results

We are delighted to announce that Ramsay Health Care has again achieved outstanding results for high performance in NJR Data Quality Audits across their network of hospitals. All Ramsay hospitals have achieved year-on-year improvements in their NJR data quality reporting outcomes and with many already having received high status awards as a result of last year's audit. Almost all Ramsay units have again received NJR's Data Quality Award which is presented to accredit the staff in individual hospitals who have achieved outstanding data quality results. This can be displayed in public areas and serves to demonstrate the hospital's high standards of care.

Ramsay Health Care, which was established in 1964, is well-respected in the health care industry for operating quality private hospitals and for its excellent record in hospital management and patient care. Ramsay's adherence to engagement with NJR's quality work on data quality is exemplary and a clear demonstration of their commitment to the achievement of high standards in ensuring patient safety.

Elaine Young, NJR Director of Operations said, 'We are thrilled with Ramsay's consistently high performance in NJR's data quality audits. Ramsay staff are very deserving of the accolades they have achieved and been awarded in the NJR data quality awards process. Their keen focus on ensuring the high quality of their NJR data is of paramount importance to patient safety and to improving patient outcomes across orthopaedic joint replacement practice.'

Vivienne Heckford, Ramsay National Director of Clinical Services said "We are delighted that once again we have achieved the high standards set by the NJR Data Quality Audits. We have a strong focus on high quality care, and continue to monitor and audit that care, which we can demonstrate through external audits, like the NJR Data Quality Audit."

Well done Ramsay!

High achievers in NJR Data Quality from Ramsay Duchy, Fitzwilliam, Park Hill and Pinehill Hospitals
